

Medical Grade Skin Care • Private Label • Custom Formulations

March 26, 2008

Dear Valued Customer,

We are pleased to announce that Neutraderm has found a new home! Due to the expansion and growth of Neutraderm in the private label sector we will be making a seven fold expansion to our new home in the San Fernando Valley. The move to a significantly larger and more modern facility is motivated by the increased outreach of our products in the dermatological and private label sector.

Our move takes place on Monday, April 22, 2008. **Our new address is 20660 Nordhoff Street Chatsworth, CA 91311.** Please note our warehouse will not be processing shipments from Monday, April 21 through Monday, April 28 2008. All stock item orders placed during this time will be shipped by Wednesday, April 30. All custom formulation orders must be received to the Sales Department no later than Wednesday, April 2 to insure that your orders will be shipped before April 18. Custom Formulation orders received after April 18 will be shipped no later than May 13, 2008. Our Sales Department will be available during this transition to handle all of your questions and concerns.

We will make every effort to make this an easy transition. Please help us with this transition period by planning and ordering your products accordingly.

We appreciate your loyalty and support and look forward to continuing to meet your Medical Grade Skin Care needs!

Sincerely,

Samuel D. Raof
